EDUCATION

Full Stack Web Development
Masai School, Bengaluru
i.e. 2022-2023-present

BSc(Computer and Science)
Uma degree college, Morena
i.e. 2019-2022

TECHNICAL SKILLS

- JavaScript
- Node.js
- Prompt-Engineering
- Express.js
- MongoDB
- MySQL
- HTML5
- CSS3
- React.js
- Socket.IO

SOFT SKILLS

- Problem Solving
- Teamwork
- Attention to Detail
- Adaptability
- Time Management
- Effective Communication

INTERESTS

- Music
- Cricket

CERTIFICATIONS

- Prompt Engineering

PROFESSIONAL SUMMARY:

Highly skilled Node.js Developer with a proficiency in building solo and collaborative projects. Demonstrates expertise in Node.js and embraces the potential of Generative AI. Quick to master new tech stacks. Effective communicator and problem solver, poised to deliver exceptional results in dynamic team environments.

PROJECTS

1 . Parent-chatbot | ⊕ | 🌐

python | Vue.js | MongoDB | HTML5 | CSS3 | Flask | JavaScript

- Developed an individual parent-chatbot application using Python, Flask, and MongoDB.
- Implemented user authentication and allowed users to log in and sign up
- Users can have private conversations, view their previous conversations, and remove chat history
- Utilized Vue.js and HTML5/CSS3 to create a responsive user interface

2 . Zesty-Zomato | ⊕ | 🌐

Python | Vue.js | MongoDB | HTML5 | CSS3 | Flask | JavaScript

- Created an individual online food ordering website using Python, Flask, and MongoDB.
- Implemented user authentication with secure password hashing techniques
- Developed an intuitive user interface for browsing and adding food items to the cart
- Enabled real-time order tracking functionality for users to monitor the status of their orders

3 . Hospital-Booking-App | ⊕ | 🌐

React.js | Typescript | Node.js | Express.js | MySql | MongoDB

- Developed FindMyDoc, a collaborative online appointment booking system using React.js, Node.js, and MongoDB.
- Implemented cross-platform and responsive design for easy access on different devices
- Designed and developed the front-end and back-end logic for doctors' page
- Integrated OAuth for secure authentication with Google or other supported accounts

4 . codingquery.com | ⊕ | 🌐

HTML | CSS | JavaScript | Node.js | Express.js | MongoDB | Socket.IO

- Created a collaborative coding question and answer platform similar to Stack Overflow
- Implemented OAuth integration for secure user authentication
- Ensured project responsiveness across devices using HTML, CSS, and JavaScript
- Developed a robust login and signup system with password hashing
